

TITAN 2.0

HIGH-PRESSURE DEVICE FOR HYDRODYNAMIC SEWAGE CLEANING

The TITAN 2.0 series was developed and is manufactured by the Polish company KanRo Ltd based on over 30 years of experience in the production, sale and servicing of this type of equipment.

Thanks to its small dimensions and low weight, TITAN 2.0 can be mounted on a transport trailer, as well as in a van of any brand available on the market. The device will work perfectly in places that are difficult to access for other, large cleaning vehicles. It is designed for hydrodynamic cleaning of pipes, sanitary, rainwater and industrial pipes with a maximum diameter of up to 600 mm.

AVAILABLE CONSTRUCTION VERSIONS

TITAN 2.0 - 150/100

- Engine 48 HP
- Pressure 150 bar
- Water flow 100 l/min
- Tilting and rotating arm with hydraulic drive
- High pressure hose DN16 80 m 1/2"

TITAN 2.0 - 200/70

- Engine 48 HP
- Pressure 200 bar
- Water flow 70 l/min
- Tilting and rotating arm with hydraulic drive
- High pressure hose DN13 80 m 1/2"

TITAN 2.0 - 150/120*

- Engine 59 HP
- Pressure 150 bar
- Water flow 120 l/min
- Tilting and rotating arm with hydraulic drive
- High pressure hose DN16 80 m 1/2"

Main advantages of the device:

- ✓ Modern, solid and compact design
- ✓ High power and efficiency
- ✓ High technical parameters
- ✓ One-person operation
- ✓ Automatic pressure hose laying machine*
- ✓ Heat exchanger replacing the standard cooler, enabling additional heating of clean water used for flushing the channel
- ✓ Large water tank adapted to the vehicle's load capacity
- ✓ Winter protection system
- ✓ Remote radio control for increased work comfort*
- ✓ Wide range of additional equipment
- ✓ Made in Poland
